

30th August 2017

As Safeguard and Actionair are now part of the Swegon Group, Safeguard Systems are delighted to announce that all existing planned preventative maintenance contracts in England, Scotland and Wales will be transferred to Swegon Service UK from 1st October 2017. All Safeguard clients will be contacted in due course to ensure a smooth contractual transition.

Swegon Service's in house technical coordination team and fully trained service engineers throughout England, Scotland and Wales will ensure we continue to offer the best customer service experience within our industry.
